Re: Digital One

To Whom It May Concern:

Please accept this correspondence as my strong and sincere recommendation of James Buquicchio and Digital One Concepts concerning its file archiving software. I have had the software in my law office for about a year. It is one of the very few computer related products that has worked exactly the way the sales person said it would work.

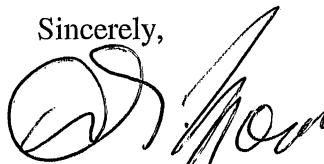

James Buquicchio is as straight as an arrow. You will get what you pay for. And it will work.

When I initially made the decision to have our files archived. I had no idea how much I would use the system. I can find the archived copy of any client's document in less than thirty seconds. What little support I've needed has been quickly provided.

The only learning curve was remembering that I had the ability to view any document that I had drafted in the last 17 years right at my fingertips.

I am pleased to write this letter of recommendation. Please give me a call if I can help in any other way or if you would like to see our system.

Sincerely,

Charles T. Moore
