Re: Digital One

To Whom It May Concern:

I write to comment on how pleased I have been with Digital One Concepts.

Digital One has enabled me to avoid the cost, inconvenience and risk of off-site storage. Instead of sending a staff member chasing after files in storage (and losing a half day of productivity in the process), I now turn on my computer, locate the Digital One-scanned file and print the specific documents I am searching for --- all within a few minutes.

Digital One's accessibility, turnaround time and support have been excellent. The entire process from call to pick-up to return of the scanned documents has been smooth and professional.

And the price is right.

Call me to discuss this further.

Sincerely,

Richard A. Burt
